

## Assignment2

### Project Title: Inventory Management System for Retailers

Team ID: PNT2022TMID43190

#### TASK 1 : Create a Bucket in IBM object storage.

The screenshot shows the IBM Cloud Object Storage console. The left sidebar contains a navigation menu with options: Cloud Object Storage, Storage instances, Cloud Object Storage-1a, Buckets (selected), Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area is titled 'Buckets' and includes a description: 'Buckets serve as containers for objects, and can be individually configured in terms of their location, resiliency, billing rates, security, and object lifecycle rules.' Below this is a table with columns: Name, Public access, Location, Storage class, and Created. A 'Create bucket' button is in the top right corner of the table area.

| Name         | Public access | Location | Storage class | Created            |
|--------------|---------------|----------|---------------|--------------------|
